

Contents of cleaning and care agents for the cleaning of buildings.

Product name: Apesin DSR 60
 Manufacturer: Tana Chemie GmbH, Mainz
 Area of application: Quick-acting disinfectant bath/sanitary cleaning agent
 Sales packaging material: PE
 Reusable packaging: 1 l [J] 10 l [N] 200 l [J]
 Manufacturers recommended concentration for application purposes: 2.5 % up to concentrated
 Dangerous substance and/or dangerous preparation: yes no

Materials group	Contents	Contents in % (please tick)				
		<1	1-5	5-15	15-30	>30
Tenside	anionic, including Soaps					
	LAS/ABS					
	Other			X		
	Cationic					
	Non-ionic, including APEO					
	other					
Solvent	Amphoteric					
	Water-soluble, including Alcohol					
	Acetone					
	Methylglycoether (2-Methoxymethanol)					
	Ethylglycoether (2-Methoxyethanol)					
	Butylglycol (Butoxyethanol)					
	Butyldiglycol					
	other					
	Non-watersoluble, Including aliphatics Including n-hexane			X		
	other					
	Aromatics, including Toluol					
Xylol						
other						
halogenized						
Terpene						
Builders (softeners)	Phosphate					
	Phosphonate					
	EDTA					
	NTA					
	other					
Acids	anorganic, including Liquefied acid (?)					
	Hydrochloric acid					
	Nitric acid					
	Phosphoric acid			X		
	Sulfamic acid					
	other					
	organic, including Ethanoic acid					
	Formic acid					
other			X			
Alkalines	Non-volatile					
	Volatile, including Ammonia					
	other					
Bleaching agents	Active carbon compounds					
	Active oxygen splitter					
Propellent gases	CFCs					
	Propane					
	Butane					
	other					
Other contents	Disinfectants Including formaldehyde					
	Other aldehydes					
	other					
	Care components					
	Abrasive agents					
	Solvent					
	Aromatics, including Ambrette-xylol compounds					
	other		X			
Colouring agents		X				

Preserving agents	Including formaldehydes and splitters						
	other						
p-dichlorbenzol							
Enzymes							
Water							X
